Suspicious Body Format

The email body contains no HTML.

Suspicious Sender Behavior

The recipient has never communicated with the sender.

Message Details

Message Insights (2)

 Sender Prevalence: new UTC offset of sender: 0

According to the image:

- **Is the sender's IP address blacklisted?**

The image does not mention anything about the sender's IP address being blacklisted, so we cannot confirm that.

- **What is one suspicious thing in the email?**

*One suspicious thing is that the **email body contains no HTML**, which is flagged as a "Suspicious Body Format."*

This, along with the unknown sender and lack of previous communication, contributes to the overall **"Suspicious"** verdict.
